...

I have fitted a VW 2lt engine. It's the 2E motor. We just cannot get it started. The timing marks on the pulleys are spot on. And the distributor timing points to the notch when piston 1 is up. Is there anything else that could be wrong?

I have fitted a VW 2lt engine. It's the 2E motor. We just ...

The pointer plate will be marked in either one or two-degree increments and should have the timing mark for your 2.8L V6 engine noted. If not, count back from the "0" mark the correct number of degrees before top dead center, as noted on the VECI label under the hood, and mark the plate with chalk. Find the notch on the crankshaft pulley.
