Ajs And Matchless Single 1957

The 497cc AJS Model 18 and the Matchless G80 were revealed in late 1945 and stayed largely unchanged for the following three years. Advert The 82.5mm bore by 93mm long-stroke motor gave 497cc and ran at 6:1 compression using the traditional British pushrod-operated overhead valves, dry sump lubrication with an external oil tank, and a four-speed separate Burman gearbox.

AJS & Matchless 500 Singles: out of the archive - RealClassic

The Matchless and AJS single engine's design was typical big Brit: long stroke, iron barrel, iron head, heavy flywheels and long pushrods. Advert This low-revving, mechanically quiet power plant, sweet in both 350 and 500cc formats, is one of the serious charmers from the period, and although it's conventional in most ways, it does have its quirks.

AJS & MATCHLESS SINGLES: Hardy heavyweights - Classic Bike ...

The Matchless G80 is a single cylinder 500 cc British motorcycle built by Associated Motorcycles (AMC) between 1946 and 1966. During the 1950s and 1960s, the main export product for AMC was the AJS / Matchless range - the road bikes were very similar, often with only the badges distinguishing one marque from the other; the equivalent AJS being the Model 18 .

The AMC factory Competition Department retained both AJS and Matchless competition models from the production line for factory supported riders use and the use of the factory supported teams. The Matchless Trials Team was disbanded in 1957, leaving AJS as the factory representation in national and trade supported trials where team entries were invited by the organisers.

AJS & Matchless Trials Singles | TRIALS GURU

The AJS 500cc Model 18 and AJS Model 18S are 500 cc British motorcycles almost identical to the Matchless G80 and both were produced in the same Associated Motor Cycles (AMC) London factory from 1945 to 1966. These bikes represent the end of the era of big British singles, as when AMC merged with Norton production concentrated on twins.
