Conclusions: The Bostwick autoderma technique allows total implant coverage with two layers of vascularized tissue, improved breast contour and scar pattern, and potential single-stage reconstruction. Mastectomy skin flap necrosis may occur, but the extra layer of vascularized tissue almost always prevents implant exposure and loss.

Breast Reconstruction with the Bostwick Autoderma Technique ...

This prospect is especially formidable in the field of plastic and reconstructive breast surgery, in which techniques are constantly evolving and older texts describe procedures that have long since been supplanted by superior methods and innovative approaches.
