The DAF F218 and later F220 is the name of a modular cab used on a series of medium-duty trucks produced by the Dutch manufacturer DAF from early 1970 until the mid-1990s. The names reflect the cab width in centimetres, at 218 and 220 cm (85.8 and 86.6 in) respectively. DAF's first tilting cab design, all in steel, it also benefitted from a new 8.25 L (503 cu in) diesel inline-six.
