FAQs | Diamond Pier

DESCRIPTION AND USE The Diamond Pier@ DP-50 & DP-75 Precast Concrete Pier Foundation assembly manufactured by PIN FOUNDATIONS, INC. consists of a factory-fabricated, diamond-shaped concrete pier which has a steel anchor bolt precast into the center of the top of the pier and precast holes for the installation of steel bearing pins.

20169015 - Diamond Pier

Pier foundations can be as simple as concrete-filled cardboard tubes dropped into hand-dug holes. But more complex foundations incorporating very deep piers or helical screws can support much greater loads. To some green builders, one advantage of pier foundations is that they cause minimal disruption to the soil environment.
