Discriptive Statistics Question Paper

Descriptive English Sample Question Paper Descriptive statistics is a set of brief descriptive coefficients that summarize a given data set representative of an entire or sample population. Descriptive Statistics Definition Introduction. Statistics forms the back bone of data science or any analysis for that matter.

Discriptive Statistics Question Paper

Combinations & permutations. Question 1. $8 P 3 =$. Question 2. $8 C 3 =$. Question 3. Given that the first digit cannot be zero, then the numbers can be arranged in $9 P 4$ different ways. However, because the last digit should be even, we should subtract the arrangements that would end with odd numbers from $9 P 4$. In this case, the arrangements that would end with odd numbers would be 5!
