Driverless: Intelligent Cars and the Road Ahead: Lipson ...

Some worry about the role driverless cars might play in the next pandemic lockdown (there will be other pandemics and emergencies). David Lanza offers a thought-provoking scenario for these autonomous/self-driving vehicles: . The production of driverless cars remains in its infancy, but if those cars ever become common, the government will have no problem locking us down on the slightest pretext.

The Political Case Against Self-Driving Cars | Mind Matters

Autonomous vehicles, driverless, or self-driving cars utilize the latest technology comprising of an array of sensors, and onboard computer systems. Allowing for the logistical flow of traffic with only slight or no requirement for human
