Erectile Dysfunction As A Cardiovascular

In men older than 70, erectile dysfunction is much less likely to be a sign of heart disease. Obesity. Excess weight typically worsens other risk factors for heart disease. Low testosterone. Men with low testosterone have higher rates of erectile dysfunction and cardiovascular disease compared to men with normal testosterone levels.

Erectile dysfunction: A sign of heart disease? - Mayo Clinic

Erectile dysfunction (ED) is common, as is cardiovascular disease (CVD). As both affect similar groups it is not surprising that the two conditions frequently coexist [1,2]. Several epidemiological studies show both a high incidence and prevalence of ED worldwide, currently affecting up to 150 million men.

Erectile dysfunction and cardiovascular disease

However, experts now believe that erectile dysfunction preceding heart problems is more often due to the dysfunction of the inner lining of the blood vessels (endothelium) and smooth muscle. Endothelial dysfunction causes inadequate blood supply to the heart and impaired blood flow to the penis, and aids in the development of atherosclerosis.

Erectile dysfunction: A sign of heart disease? - Drugs.com

There is a very strong link between erectile dysfunction and heart disease. Several studies have shown that if a man has ED, he has a greater risk of having heart disease. Having ED is as much a risk factor for heart disease as a history of smoking or a family history of coronary artery disease. Appointments 800.659.7822

Erectile Dysfunction & Heart Disease

Erectile dysfunction (ED) is common, affecting almost 40% of men over 40 years of age (with varying degrees of severity) and increases in frequency with age. 1 Erectile dysfunction and cardiovascular disease (CVD) share common risk factors including age, hypercholesterolaemia, hypertension, insulin resistance and diabetes, smoking, obesity, metabolic syndrome, sedentary lifestyle, and depression. 2 Cardiovascular disease and ED also share a common pathophysiological basis of aetiology and ...
