Course Description. This course studies basic concepts of financial and managerial reporting. The viewpoint is that of readers of financial and managerial reports rather than the accountants who prepare them.

Introduction to Financial and Managerial Accounting ...

By Mark P. Holtzman. Managerial accounting helps managers and other decision-makers understand how much their products cost, how their companies make money, and how to plan for profits and growth. To use this information, company decision-makers must understand managerial-accounting terms. When planning for the future, they follow a master budgeting process.
