Making Transparent Soap: The Art of Crafting | Bulk Apothecary

When creating a transparent soap recipe, choose at least 75% hard oils (coconut oil, palm oil, tallow, lard, stearic acid). All of the solvents added can soften a recipe that contains lots of soft oils. Include castor oil in your recipe. Castor oil is a bit of solvent so works well in transparent soap.

Alcohol - According to C. Failor, it is impossible to make a transparent soap without alcohol. Or, it is possible, but such a soap loses its transparency with time. The best alcohol is denatured ethylalcohol of 90%. I add that you can use instead a propylene-glycol, which will make your soap meltable => you will obtain a meltable M&P soap base!

Additionally, transparent soap is not the same thing as melt and pour soap. Melt and pour soap is a completely different process and requires specially manufactured soap bases that have a low melting point enabling creative soapers to do very creative things that may not be possible with cold, hot, or one of the many other soap making processes.
