CHAPTER 5 MANAGING POWER AND POLITICS IN ORGANIZATIONS

Power (and politics) is probably the most important topic in project management but at the same time one of the least discussed subjects. Power, in the engineering sense, is defined as the ability to do work. In the social sense, power is the ability to get others to do the work (or actions) you want regardless of their desires.

Power and politics in project management

Power and politics in organizations are a reality that no organization can ignore. Though the evolution of the modern corporation and the concomitant rise of the managerial class with a professional way of running the firms is touted to be one of the contributory factors for the decline on power politics in organizations, one cannot just simply say that there are no power centers or people with vested interests even in the most professionally run and managed firms.

Power and Politics in Organizations - Management Study Guide

Power and politics within a business or organization are rather similar to the traditional political structures of government: authority is divided throughout the different parts of the system that power is exerted in. 1 There are often different sources of power competing for control, which isn't necessarily a bad thing until someone decides ...

Power And Politics Within a Business Organizational ...

A political pyramid exists when people compete for power in an economy of scarcity. In other words, people cannot get the power they want just for the asking. Instead, they have to enter into the...
