A collection of volume and surface area GCSE questions, with answers. Mostly Edexcel.

Volume and Area - A/A* GCSE questions | Teaching Resources

This may seem a little different, but it actually comes up a lot. First, we must write the volume in terms of x.The volume of a pyramid is one third of the area of the base times by the perpendicular height.We know the area of the base is $18\text{text{cm}}^2$, and the expression we're given for the height is $x+5$, so the volume is $\frac{1}{3}\times 18\times(x+5)=6(x+5)$
