Problem And  
Solutions Free

In operations research, a team of experts from the different fields first define the problem then represent that problem in the form of a set of mathematical equations. After that, the computer analysis of these mathematical equations is done to find a solution for the problems, and then these solutions are applied to solve managerial and administrative

refer to "operational research", the Americans to "operations research" - but both are often shortened to just "OR" (which is the term we will use). Another term which is used for this field is "management science" ("MS"). The Americans sometimes combine the terms OR and MS together and say "OR/MS" or "ORMS".

**OPERATIONS  
RESEARCH LECTURE  
NOTES**

Employing techniques from other mathematical sciences, such as mathematical modeling, statistical analysis, and mathematical optimization, operations research arrives at optimal or near-optimal solutions to complex decision-making problems.

Problems and exercises  
in Operations Research

Leo Liberti<sup>1</sup> Last

update: November 29,  
2006 <sup>1</sup>Some exercises

have been proposed by  
other authors, as

detailed in the text. All  
the solutions, however,

are by the author, who  
takes full responsibility

for their accuracy (or  
lack thereof).

Problems And  
Solutions Free

Example 1. Maximize  $z = 3x_1 + 2x_2$ , subject to  $-x_1 + 2x_2 \leq 4$ ,  $3x_1 + 2x_2 \leq 14$ ,  $x_1 - x_2 \leq 3$ ,  $x_1, x_2 \geq 0$ .

Solution. First, convert every inequality constraints in the LPP into an equality constraint, so that the problem can be written in a standard form.

## **Problems: Statements and Solutions ...**

The transportation problem in operational research is concerned with finding the minimum cost of transporting a single commodity from a given number of sources (e.g. factories) to a given number of destinations (e.g. warehouses). These types of problems can be solved by general

# Access Free Operations Research

network methods, but here we use a specific transportation algorithm.
