Project-Based Organizing and Strategic Management - Google ...

Abstract. The last several years have witnessed a growing scholarly interest in project-based organizations. This interest mirrors the diffusion of this organizational form across a wide range of industries, well beyond those where organizations traditionally have been organized by projects. To date, however, research on project-based organizations has not yet offered a systematic investigation of the interactions between project-based organizing and strategic management research.

Project-Based Organizing and Strategic Management

Strategic project management is the next big thing within the project management community. A popular and growing trend that is slowly sweeping the business world. The main idea of the concept is based on project management teams learning how to support their company's strategy and deal with the business aspects of their projects.

What Is Strategic Project Management and How to Develop It ...

Build a Decision Making Framework. In some organizations, this framework can take the form of a project management office (PMO). In other, smaller organizations, this framework can just rest with an executive or a project manager that has been tasked with the ability to make “yes” or “no” decisions on projects based upon the strategic importance of a project to the organization’s ...

Although project-based organizations (PBOs) focus on implementing projects to perform their primary activities, many PBOs fail to effectively generate strategic advantages from their projects. This paper examines how PBOs can develop the dynamic structures they need to effectively create tangible value and efficiently achieve both sustainability and project success.

Creating project-based organizations to deliver value

The project-based organizations (PBOs) are defined as organizational forms that are necessary in the making temporary systems for the project's performance. It conducts most of the project's activities and provides the functional approaches of the project.

Project-Based Organizations (PBOs) - Project Management ...

Projects can be a powerful tool for achieving the strategic objectives of an organization. When an organization has clearly defined strategic objectives, projects should be selected to help further, or deepen, that strategy. In doing so, projects should be selected based on their ability to support organizational strategy.

Project Management | Strategic Project Selection

The function of the structure is to identify the portfolio, sub-portfolio, programs and projects based on various aspects that will help align with the portfolio strategic plan. These are organization areas included, hierarchies, individual goals for each program, timelines, project, and operations for strategic alignment.
