To get a basic idea of a trading style with Renko this is fine but the key to really having a profitable trading system is to avoid some of the 15 point losses. The bar does not show current price so if you wait for the second bar to close the actual price can be a few pips worse in a fast moving market.

Amazon.com: Customer reviews: Renko Bar Trading System

I buy EUR/USD@ 14000, price move to 14125, one blue bar appear, price move to 14250, another blue bar appear, now price move back to 14000, red bar appear, close my existing buy position and sell it instead. Same goes for opposite direction. No need SL or TP. SL is basically the 250pips moving opposite.
