For patients that have been identified as being in their last days or weeks of life, the Hospital or Community Palliative care teams can help coordinate rapid discharge to home or hospice. This supersedes the current fast track end of life process (Level 4: NHS England, 2020; Level 4: Lawrie and Murphy 2020).

Hospital Visiting and COVID-19 - ScotPalCovid

The use of the hospital at the end of life is more than a cost concern. Increasing attention to the quality of end-of-life care includes evaluation of the site of death (8 , 12). The high proportion of patients with advanced cancer that die in the hospital contrasts with the preference of many patients to die at home with good control of pain and other symptoms or in a hospice setting (9 , 13 - 16).
