## **Jennifer M. O'Connor, New York University School of Law ...**

When normal peacetime relations between States break down and they resort to the use of force, it is the law of armed conflict that determines which acts of hostility are lawful. The idea that law should regulate what is done in war may seem strange, but it is nowadays well accepted. Accordingly, the law determines which targets may be attacked and which classes of person and object must be protected. Some persons and objects are specially protected, and it is vitally important that all ...
