The Oiling of America with Sally Fallon Morell . March 18, 2019 By Hilda Labrada Gore Leave a Comment. Unfortunately, traditional fats have been replaced in many kitchens by “heart healthy” processed oils and spreads. Today, Sally Fallon Morell, the President of the Weston A. Price Foundation, explains how detrimental this is for our health.

The Oiling of America - The Weston A. Price Foundation

The American Medical Association at first opposed the commercialization of the lipid hypothesis and warned that "the anti-fat, anti-cholesterol fad is not just foolish and futile. . . it also carries some risk." The American Heart Association, however, was committed. In 1961 the AHA published its first dietary guidelines aimed at the public.

The Oiling Of America Part 1 Part 2

Petroleum in the United States has been a major industry since shortly after the oil discovery in the Oil Creek area of Titusville, Pennsylvania in 1859. The industry includes exploration, production, processing, transportation, and marketing of natural gas and petroleum products. As of 2019, the United States is the world's largest oil producer. The leading oil-producing area in the United States in 2014 was Texas, followed by the offshore federal zone of the Gulf of Mexico, North Dakota and Ca

Petroleum in the United States - Wikipedia

The Oiling of America Sally Fallon presents the work of famed researcher Dr Mary Enig in this essential history of how “vegetable oils” (unnaturally refined seed oils) came to be falsely positioned as the “safest” and “healthiest” fats for the human diet.

The Oiling of America - Reinventing the Supermarket

United States crude oil production declined since reaching a smaller secondary production peak in 1988 (caused by Alaskan production), but increased again from 2009 to 2015. Total production of crude oil from 1970 through 2006 was 102 billion barrels (16.2×10^9 m³), or roughly five and a half times the decline in proved reserves.. Since the oil price peaked about

...

In the final post on my notes from last Saturday's Deidre Currie Festival, Sally Fallon's talk on "The Oiling of America" tells how we came to believe the myth that saturated fats are harmful to our health. It grinds me like crazy that it is still quite common to hear someone say their doctor wants them to cut back on saturated fats, and often go on dangerous statins, because their cholesterol is too high.

By 1861, the United States was producing 2.1 million barrels per year. Drilling expanded to other areas of the country as oil, and oil marketers, became a part of the fabric of American society. No one was more synonymous with this booming industry than John D. Rockefeller, founder and chairman of Standard Oil Company.

A Brief History of Oil in America, Part 1 | PetroChoice

North America covers an area of about 24,709,000 square kilometers (9,540,000 square miles), about 16.5% of the Earth's land area and about 4.8% of its total surface. North America is the third-largest continent by area, following Asia and Africa, and the fourth by population after Asia, Africa, and Europe. In 2013, its population was estimated at nearly 579 million people in 23 independent ...
