The Working Class In American

The Working Class in American History series publishes research that illuminates the broad dimensions of working people's influence in North America. We define working-class history capaciouly and encourage submissions that explore waged, non-waged, and/or coerced labor, rural and urban settings, and the wide range of labor performed in non-industrial settings, from agriculture to domestic service and beyond.

The Working Class in American History

According to the class model by Dennis Gilbert, the working class comprises those between the 25th and 55th percentile of society. In 2018, 31% of Americans self described themselves as working class. Retired American adults are less likely to describe themselves as "working class", regardless of the actual income or education level of the adult.

To those who say riots are not the answer and voting is, I say: voting does not work for poor, black, working-class Americans. Lucy Parsons, born in Texas in 1851, was a working-class activist revolutionary and anarchist, whose heritage was African American, native American and Mexican.

Democracy Doesn't Work for Black, Working-Class Americans ...

In the recent period, the so-called Tea Party movement has laid claim to the legacy of the American Revolution. With their tri-corne hats and abstract appeals to patriotism and freedom, they have seized headlines, aided by generous coverage by the corporate media. This has led to tremendous confusion when it comes to the real class roots of this world-shaking event.
