Diagnosed with Aspergers in her mid-forties, Samantha is sensitive to the emotional challenges a late-life diagnosis can bring. She also understands the gifts of being on the autism spectrum. To date, since 2012, Samantha has corresponded with thousands of adult autistics.

Glad Tidings From a Late-Age Diagnosis of Asperger's ...

It feels strange for me to talk about how it was like growing up having Asperger's because I was diagnosed at 19 years old. It's not unusual for people with Asperger's to get a late diagnosis – they seem like neurotypical people behaving differently – but it does mean that neither I – nor my family – knew about the obstacles I could face while growing up.
