Vision 2050 Roadmap For A

Vision 2050 is a roadmap for a viable future for Europe's refineries, but it is not a simple way forward. The vision is ambitious, as FuelsEurope – a division of the European Petroleum Refiners Association – is quick to acknowledge. Yet it is vital to Europe's energy independence, the environment and the economy.

Vision 2050: A roadmap for refiners | Energy Focus

Hiroshi Komiyama's "Vision 2050" is a plan for paving a road to global sustainability. It lays out a path to a sustainable future for humanity that could realistically be achieved by 2050 through...

Vision 2050 | SpringerLink

The last decade has shown that by working together with a common purpose, change is possible. Vision 2050 is not a roadmap to the future. Flexibility and openness to change will mark the way forward. Instead, Vision 2050 is a challenge to all aviation stakeholders – to unite in articulating and delivering a dynamic vision

Vision 2050 - IATA

Since the author presented the concept of "Vision 2050" in 1999, the idea has been introduced in two books entitled Vision 2050: Roadmap for a Sustainable Earth (2008) and Beyond the Limits to Growth: New Ideas for Sustainability from Japan (2014). The latter includes a chapter that sheds light on the concept of a "platinum society".

New Vision 2050 - A Platinum Society | Hiroshi Komiyama ...

Vision 2050 explored what a sustainable world would look like in mid-century, how such a world could be realized, and the role that business has to play in making that vision a reality. Vision 2050 had at its core the attributes of successful business planning: understand the current situation, identify the obstacles to success, and create a pathway to overcome those obstacles.

Vision 2050 - World Business Council for Sustainable ...

Vision 2050: A strategy to decarbonize the global transport sector by mid-century. Global demand for passenger and freight transportation continues to rise, driven by population and economic growth. As transportation demand has grown so too, inexorably, have carbon emissions from the global transportation sector.

Vision 2050: A strategy to decarbonize the global ...

In 2011, the European Commission put forward a roadmap for a competitive low-carbon Europe by 2050. The roadmap presented possible action up to 2050 which could enable the EU to deliver greenhouse gas reductions in line with the 80 to 95% target agreed internationally in the context of necessary reductions by developed countries as a group.

2050 long-term strategy | Climate Action

Roadmap 2050. A practical guide to a prosperous, low carbon europe. The mission of Roadmap 2050 project is to provide a practical, independent and objective analysis of pathways to achieve a low-carbon economy in Europe, in line with the energy security, environmental and economic goals of the European Union.

Roadmap 2050

Specifically, Komiyama envisions a three-fold increase in overall energy efficiency and a doubling of renewable energy resources by 2050. "Vision 2050: Roadmap for a Sustainable Earth" is written to address the concerned citizen as well as to inspire an exchange of ideas among experts, policy makers, industrial leaders, and the general public.
